
Product name:	BSA Mouse Monoclonal Antibody
Cat number:	MABN80518
Conjugate:	Unconjugated
Size:	100µL
Clone:	Monoclonal
Concentration:	1mg/ml
Host:	Mouse
Isotype:	Mouse IgG1
Immunogen:	Bovine serum albumin.
Reactivity:	Other
Applications:	WB 1:500-1:2000,ELISA 1:5000-1:20000
Molecular Weight:	Calculated MW: 33 kDa; Observed MW: 20,35 kDa
Purification:	Affinity Purification
Form:	Liquid
Buffer:	Purified antibody in PBS with 0.05% sodium azide.
Storage:	Store at 4°C short term. Aliquot and store at -20°C for 12 months. Avoid freeze/thaw cycles.
Background:	Bovine serum albumin (BSA) is used in variety of laboratories products which contain BSA as a stabilizer. BSA could be detected for the indication of remains of chemical derivates from animal products. This antibody is a good reagent that may be used for the development of detection assay in ELISA or western blot to test the remaining BSA for clinical products in Vivo or research products In Vitro.
